

#1610

Inventory

1. Cameron Synthetic Fuels Report - Vol. 17 #1, March, 1980
2. Identification of Probable Automotive Fuels Composition 1985-2000, May, 1978, prepared for U.S. Dept. of Energy
3. Comparative Automotive Engine Operation When Fueled with Ethanol and Methanol, May, 1978, prepared for U.S. Dept. of Energy
4. Identification of Probable Automotive Fuels Composition: 1985-2000, May, 1978. Prepared for U.S. Department of Energy.
5. Projections of Direct Energy Consumption by Mode: 1975-2000 Baseline by Knorr, Rita E. and Marianne Millar, 1979.
6. Conceptual Design Study of An Improved Gas Turbine Powertrain, 1978, presented at Dept. of Energy Mtg. by Johnson, R.A.
7. AGT 101 - System Development Project Summary, March, 1980, F.M.C. (2 copies)
8. Measuring and Testing Procedures for Motor Vehicle Exhaust Emissions, German Dept. of the Interior, Volkswagenwerk AG
9. Stirling Powered - U.S. Dept. of Energy
10. GM News Release - July 9, 1980 - and speech by G.M. President, E.M. Estes
