

**EXPERIMENTAL AND CONCEPT VEHICLES  
PRODUCT LITERATURE COLLECTION, 1934-2005  
Accession 1707**

**SCOPE AND CONTENT NOTE**

The Experimental and Concept Vehicles Product Literature collection consists of publicity materials, press releases, photographs, advertisements, and illustrations of concept and experimental non-production vehicles. The material highlights mechanical, design, or technological innovations unique to various automobile manufacturers. The collection includes material from domestic and international automobile manufacturers and is ongoing. It is arranged alphabetically by manufacturer and then by model.
