ABSTRACT:	The State of Indiana updated its Slow Moving Vehicle regulations in 2021. The law applied to low-speed vehicles including those towed, pulled, or animal drawn (thus applicable to Old Order Amish buggies and bicycles). The standard and the small SMV emblems affixed to Amish conveyances reflect Amish concern about personal safety of low-speed vehicles. This collection contains digital photographs documenting the Slow Moving Vehicle sign in use by the Old Order Amish in the Shipshewana, Indiana area. There is also promotional material for Yoder Department Store and guidebooks relating to Indiana "Amish Country".
ACCESS RESTRICTIONS:	The collection is open for research.
