Article in Motor Age, January 1, 1925, entitled: "Sixteen Year Accomplishment of Ford Motor Co., Written Into U.S. Senate Record."

On the occasion of Henry Ford's offer to purchase the Muscle Shoals hydroelectric project from the Federal government after World War I, the efficiency record of the Company was entered into the Senate official record to demonstrate that Ford might utilize the facility efficiently.

A table showed prior reductions over the years 1908-1923 and wage increases during that period.
